

Environmental Geologist or Engineer

Smart-Sciences, Inc. is seeking an experienced and highly motivated Environmental Geologist or Engineer for our growing Environmental Assessment team in Miami-Dade County. The ideal candidate will be a seasoned environmental consultant with 7 – 15+ years of experience. The candidate should have an in-depth knowledge of Florida Environmental regulations, including those of the Florida Department of Protection and Miami-Dade County DERM. regulatory structure for Miami-Dade County and the Florida Department of Environmental Protection and hold at least one state license (Professional Geologist or Professional Engineer). The role will focus on environmental assessment, remediation and compliance across a wide variety of land development and regulatory projects.

Key Responsibilities:

- Conduct Phase I and II Environmental Site Assessments (ESAs)
- Prepare Contamination Assessment Reports and soil management plans
- Prepare groundwater monitoring plans
- Develop background studies for contaminants of concern and Remedial Action Plans
- Perform regulatory coordination and ensure compliance with applicable local and state programs
- Prepare detailed technical reports reviewed by regulatory agencies and legal counsel
- Support permitting, environmental monitoring, and closure strategies
- Collaborate within multidisciplinary teams and provide guidance and mentorship as needed

Qualifications:

- Bachelor's degree in Geology, Environmental Engineering, or Civil Engineering (required)
- Minimum of 7 years of relevant environmental consulting experience
- Active **Professional Geologist (PG)** or **Professional Engineer (PE)** license (Florida)
- Direct experience with **Miami-Dade County DERM** and **FDEP regulations**
- Strong technical writing, communication, and organizational skills
- Proven ability to manage time and priorities across multiple active projects
- Collaborative mindset and adaptability in a fast-paced consulting environment
- Proficient in standard office and environmental reporting software
